

Collins Krubu

Date of birth: 01/11/2001 | **Nationality:** Nigerian (Nigeria) | **Gender:** Male |

Address: Nigeria (Home)

EDUCATION AND TRAINING

01/09/2014 – 01/06/2017 Ekpoma, Nigeria

WEST AFRICAN SENIOR SCHOOL CERTIFICATE (WASSCE) Mount Carmel Secondary School

- Analytical & Technical Foundation: General Mathematics, Data Processing, Physics, and Chemistry.
- General Sciences & Practical Application: Agricultural Science and Foods & Nutrition.
- Humanities & Communication: English Language, Geography, and Civic Education.

Level in EQF EQF level 4

19/01/2019 – 02/03/2019 Effurun, Nigeria

CERTIFICATE OF PARTICIPATION: EMBEDDED SYSTEMS BEGINNERS WORKSHOP 2.0 Oseke Technology Solutions (in collaboration with Federal University of Petroleum Resources)

- Hardware Engineering Fundamentals: Basic Circuit Design and embedded Input/Output control.
- Low-level Programming: Applied C++ programming for hardware systems.
- Component Interfacing: Hands-on experience interfacing LCD displays and GSM modems.
- Applied IoT & Robotics: Developed practical projects including a Pedestrian Crossing Aid, an Intruder Alert Security System, IoT-based Remote Sensing, and an Autonomous Robot.

09/09/2017 – 10/09/2022 Effurun, Nigeria

BACHELOR OF SCIENCE (BSC) IN COMPUTER SCIENCE Federal University of Petroleum Resources, Effurun (FUPRE)

- Software Engineering & Architecture: System design, data structures, algorithms, and full-stack development principles.
- Low-Level & Embedded Systems: Microcontroller programming, hardware-software interfacing, and C/C++ development.
- Database & Backend Systems: Database management systems (SQL/NoSQL), distributed networking, and API design.
- Practical Application: Applied problem solving through capstone engineering projects and software development lifecycles.

Level in EQF EQF level 6

WORK EXPERIENCE

SOFTWARE ENGINEER – SHURI EDUCATION – 01/01/2026 – 17/03/2026 – ABUJA, NIGERIA

- Led full-stack development lifecycles for an educational technology platform.
- Developed responsive frontends and reliable backends using React/Nextjs and Node.js.
- Designed proprietary dashboards to optimize administrative operations for the platform.

SOFTWARE SPECIALIST – LUNAR FINANCE – 03/07/2025 – 03/07/2026 – REMOTE, NIGERIA

- Built backend routing services for a high-traffic Web3 multi-chain DEX aggregator application serving over 350,000 active users.
- Optimized PostgreSQL database queries and built high-throughput RPC indexers using Rust.
- Successfully reduced cross-chain transaction latency by 40% for a platform processing over \$1M+ daily trading volume.

- Architected the backend infrastructure in Go and Node.js for a multi-platform SaaS ecosystem for B2B logistics and food delivery.
- Managed complex driver routing state and real-time inventory updates and designed scalable NoSQL MongoDB schemas handling thousands of asynchronous events.
- Solely managed end-to-end deployments across Web, Windows, macOS, iOS (App Store), and Android (Play Store) using Flutter and Fastlane CI/CD.
- Orchestrated all cloud infrastructure utilizing Docker and AWS.

- Contracted to develop the backend infrastructure for the Minto NFT Marketplace.
- Developed and delivered the complete suite of Admin Panel APIs according to strict API specifications.
- Successfully met tight, milestone-driven deadlines (15-day turnaround) for a Web3/NFT platform.

- Led the embedded engineering efforts for an EdTech and IoT product studio.
- Designed and deployed real-world IoT hardware using ESP32 microcontrollers and FreeRTOS.
- Wrote robust C/C++ firmware for smart home devices, sensor-driven farm irrigation systems, and coin-operated vending devices.
- Engineered real-time data ingestion pipelines using WebSockets to seamlessly bridge physical hardware with Next.js and Node.js cloud dashboards.

SKILLS

Google Drive | Zoom | Social Media | Python (computer programming) | Google Docs | Typescript | Java | Git | HTML | SQL | CSS | Python | JSON | MySQL | Github | Object-Oriented Programming | Linux | Web Development | XML | RESTful api | HTML5 | Unit Testing | REST | Relational databases | MongoDB | Docker | Jira | Postman | Web API | Design Patterns | Continuous Integration | Agile (Scrum) | API Integrations | Clean Code | Object Oriented Programming (OOP) | Software Engineering | PostgreSQL | Microservices | NoSQL | Code Review | RESTful Web Services | Visual Studio Code | Javascript | Slack | Scrum

DIGITAL SKILLS TEST RESULTS

 Information and data literacy	ADVANCED	Level 6 / 6
 Communication and collaboration	ADVANCED	Level 6 / 6
 Digital content creation	ADVANCED	Level 6 / 6
 Safety	ADVANCED	Level 6 / 6
 Problem solving	ADVANCED	Level 6 / 6

Results from a [self-assessment](#) based on [The Digital Competence Framework 2.1](#)
